

money is to be distributed to the municipalities and counties, equally, does it mean the same amount will go to every county, or does it mean the same amount that goes to each county will go to each city? If there are more counties...more cities than counties, there are 93 counties, 500 and something cities, how can you equally give each county the same amount as each city? Of if you give 50 percent, of the 90 remaining percent, to the counties, and then give 50 percent, somehow, to all of the municipalities, does the equally mean that among the cities each city will get the same amount? If ten percent goes to the state in the first place, we don't have the \$850,000 to establish all these youth corps all over the state. The more we look at it, the less money is available for this purpose. I think the bill, and I can be kind now, I think the bill is not well conceived. I think that the bill is not in the form that a bill would need to be in to accomplish what Senator DeCamp and others say this bill is designed to do. I will not call it a hoax. Res ipsa loquitur. But I will say....

PRESIDENT: One minute, Senator.

SENATOR CHAMBERS: ...that there are some very serious problems with the formula for distribution. To put it in a nutshell, if the current high fund money is distributed 53 1/3 to the state, and you start in this bill by limiting the amount in this bill to 10 percent to the state, then I don't see how the highway distribution formula can be utilized. I think that this bill is not good. I think it ought to be killed.

PRESIDENT: Senator Koch. Senator Merz calls for the previous question. Are there five seconds? Yes, there are. The question is shall debate cease. Record your vote. Have you all voted? Record. Senator DeCamp.

SENATOR DeCAMP: Mr. President, I ask for a Call of the House.

PRESIDENT: The question is shall the House go under Call. Record your vote. Record.

CLERK: 19 ayes, 11 nays to go under Call, Mr. President.

PRESIDENT: We are under Call. The Clerk can take votes.

CLERK: Senator Savage voting aye. Senator Marsh voting aye. Senator Labedz voting aye. 27 ayes, 3 nays on the motion to cease debate, Mr. President.

PRESIDENT: Debate ceases. Do you want to close, Senator DeCamp?

SENATOR DeCAMP: Mr. President, and members of the Legislature, I am going to limit my remarks pretty much to Senator Bereuter's remarks, because they were the strongest attack on the bill, about how this bill was a hairbrain scheme, about how it was degrading to the legislature, and how we was just sick at what we were doing. Well, Senator Bereuter, I would agree, you would be sick because this isn't a government plan, is it? This isn't ten new agencies with fourteen new administrators. This isn't under the Office of Planning and Programming. This doesn't have a \$20 million impact. It has an \$850,000 impact, and we all know, as Senator Chambers pointed out, you can't do
